Re: **National Park Service's Lake Crescent Management Plan Draft Environmental Impact Statement (EIS), Clallam Co., WA**

Dear Mr. Morris:

The U.S. Environmental Protection Agency (EPA) has received the Lake Crescent Management Plan draft EIS for review in accordance with our responsibilities under the National Environmental Policy Act and under Section 309 of the Clean Air Act.

The purpose of the proposed action is to develop a long-range management plan to effectively address the potential impacts resulting from increased volumes and intensity of use at Lake Crescent. The draft EIS evaluates three action alternatives and the no-action alternative.

EPA Region 10 has used a screening tool to conduct a limited review of the draft EIS. Based upon our screen, we do not foresee having any environmental objections with the preferred alternative. Therefore, we will not be conducting a detailed review of the draft EIS.

If you have any questions, please contact me in Seattle at 206/553-2143.

Sincerely,

Larry Brosh
